About

Enthusiastic Front End Developer with skills in developing component-based responsive web applications using React, Next.js, and Javascript. I also worked in Web Design as a web designer. I enjoy working with React.js. I am also passionate about design and using that in my components and successfully involved in both the front end and the design process with UI/UX.

Skills

React / Recoil / Next.js / TypeScript / JavaScript / jQuery / HTML / CSS / SASS / Version Control / Web design / Figma / Adobe XD

Experience

Freelance Front End Developer - Argo, Inc.   Remote Contract | 08. 2021 – Present

- Helped clients develop services that were specific to their needs.
- Instrumental in a team of 2 developers, reviewed code and helped provide additional perspective on the board process.
- Created 3 landing pages in a week whlist organising the design process / SCSS single-handedly.

Front End Developer - Argo, Inc.   Nagoya, Japan | 04. 2019 – 09. 2020

- Tasked with the maintenance and updates to 10+ websites and provided person centred care to those clients.
- Took verbal instructions from clients and turned into design components such as contact form and buttons with 2 team members and satisfied clients with the outcome.
- Developed frontend using JavaScript collaborating with backend teams to deliver projects.

Web Designer - Piece Craft, Inc.   Nagoya, Japan | 04. 2018 – 03. 2019

- Re-designed the website to increase user engagement for the product and increased products purchases by 20% through the website.
- Developed front-end using JavaScript with revised brand guidelines to reflect the new brand image with help of the team.
- Collaborated with both clients and back-end teams to convert client specifications to fully functional products.

Civil Servant - Sekigahara Town Hall   Gifu, Japan | 04. 2014 – 03. 2018

- Designed the layout of the town's monthly magazines to attract more readers.
- Increased dramatically profits in my area of responsibility by more than sixfold through my actions and implemented business system.

Projects

Flat Review App   2022 - Present

- Built a web app with a backend developer for expatriates in London to find flats' reviews and comments.
- Used Next.js to update instantly the list interface without reloading.
